

Kwotasie: SC777/2009**Specification**

Specification for the maintenance of various items of mechanical/electrical equipment at the Preekstoel water treatment works and the sewerage treatment works of Overstrand Municipality, Hermanus.

A compulsory site meeting on Wednesday, 18/11/2009 at 10:00am will be held to indicate the extent of the work to prospective tenders. Prospective tenderers will be required to submit a schedule of rates. These rates shall include for all overhead costs and no additional costs will be considered.

Equipment that needs to be repaired must be opened up and a detailing scope of repairs to be undertaken must be given to the municipality for approval. It will be expected of the tenderer to provide proof of materials purchased for repairs that will be done on the equipment. The operational integrity of the plant must be maintained throughout the maintenance process. It will be expected of the successful tenderer to make an assessment of the scope of work to be undertaken and to provide an estimate cost of such work.

Council reserves the right for all quotes and invoices submitted for labour costs to be verified by an independent third party. All prices to remain firm for the contract period until the end of the contract which terminates 30 June 2010.

Because this tender runs until the end of the financial book year it could be expected from the successful tenderer to do maintenance as and when required.

The successful tenderer must indicate response times should an emergency callout arise.
