projecting about 2' 6".

A1 & the base of what was once a very large cairn of stones.

I consider these the beacons of the farm from which the portion "Lang Bosch" is deducted because (i) they agree fairly well with the old diagram (ii) they have been considered as such for well over 30 years.

G is a line beacon the corner beacon of the line F G produced is no longer in existence but G is a well authenticated beacon & acknowledged for well over 30 years as defining the boundary between Strandfontein & adjoining ground.
