

**Quotation SC 834/2010**

**SPECIFICATION FOR THE SUPPLY OF GENERATORS TO SEWERAGE PUMP STATIONS FOR A PLANNED ESKOM POWER OUTAGE IN HERMANUS**

The following generators are required for an Eskom shutdown on Sunday, 11/4/2010, from 06h00 to 19h00.

Generators required:

2 x 300 KVA

2 x 100 KVA

1 x 69 KVA

3 x 34 KVA

The quotation must make allowance for the following:

Generators are to be delivered to the sites by Friday, 9/4/2010, by 16h00 at the latest. Municipal staff will indicate where they are to be placed. This is to accommodate a dummy run on Saturday, 10/4/2010.

Generators must be collected on 12/4/2010 from the sites, from 8am onwards.

Suppliers must provide spare generators and cable, should the need arise for a replacement.

Quotations are to include for a 15 metre length of trailing cable, sized for the relevant generator.

Generators are to be delivered to the sites with a full tank of diesel.

Overstrand Municipality will ensure that the diesel tanks are filled before the generators are collected.

The quotation is to include for a technician to be on standby, should one of the generators fail. The technician will make the necessary arrangements to replace faulty generators should the need arise.

If suppliers do not have the size of generators required, they are to price for a larger unit.

The generators will be placed at unmanned sites. It is the responsibility of the successful tenderer to provide for security arrangements, suitable toilet facilities and protection from inclement weather for security staff, should they deem this necessary. Should tenderers decide that they are going to supply security, toilets and inclement weather protection for the sites, this must be priced as a separate item.

Suppliers are to note that the shutdown may be cancelled due to inclement weather and that an alternative date will be supplied by Eskom.

The quotation is to be valid for this alternative date as well. As soon as this alternative date becomes available it will be communicated to the prospective supplier.
