Dear Jonathan,

**Re: PHASE 1 ARCHAEOLOGICAL IMPACT ASSESSMENT:
PROPOSED HOUSING DEVELOPMENT, KHOISAN BAY,
DE KELDERS, GANSBAAI**

The Archaeology, Palaeontology and Meteorites (APM) Committee of the Western Cape Provincial Heritage Resources Authority, Heritage Western Cape (HWC), discussed the above Phase 1 Archaeological Impact Assessment (AIA), undertaken by Mr. J. Kaplan, at a meeting held on 05 May 2006. The following was noted and decided:

- a) The proposed development is an extension of the current De Kelders Township.
- b) Thirteen archaeological sites were recorded during the baseline study for the report. Based on previous reports, the site of the proposed development is considered archaeologically sensitive.
- a) The APM Committee has approved shovel test excavations to determine the possible existence of underground archaeological deposits. According to Section 35 (4), "no person may, without a permit issued by the SAHRA or Heritage Western Cape, destroy, damage, excavate, alter or remove from its original position, or collect, any archaeological material or object", and thus a permit issued by (HWC) is required for the shovel test.
- c) Monitoring of earthworks and excavations by an approved archaeologist.
- d) In the event that human burials are uncovered or exposed during earthworks or excavations, there must be reported immediately to the South African Heritage Resources Agency (Att: Mrs M. Leslie 021 462 4502) and Heritage Western Cape (Att: Ndukuyakhe Ndlovu 021 483 9685).
