

SC 1327A/2013: NOTICE OF AMENDMENTS TO CONTRACTS

NOTICE IS HEREBY GIVEN IN TERMS OF SECTION 116 (3) OF THE LOCAL GOVERNMENT MUNICIPAL FINANCE MANAGEMENT ACT, 2003, OF THE PROPOSED AMENDMENT OF CONTRACTS FOR LICENSE AND SUPPORT AGREEMENTS FOR ICT RELATED SYSTEMS AND SERVICES.

Various business applications systems, with similar functionalities, are currently deployed in the Overstrand Municipality. Ongoing data integration between the different business application systems, results in increased complexities whilst attempting to maintain data integrity between systems.

It is therefore the strategic intent of the municipality to assimilate similar functionalities from the various business application systems deployed in the municipality, into the municipality's core Financial System. However, considerations to introduce such an enterprise approach to business application systems should always be weighed carefully against initial investment costs for such ventures, as well as the potential risks if the anticipated operational efficiencies and return on investments are not realized.

Due to the complexities inherent to such application systems conversions, a phased approach will be followed over the next three financial years (2013/2014 - 2015/2016) commencing 01 July 2013, to enable the Overstrand Municipality to assess the functional viability and cost effectiveness to assimilate the similar functionalities of the various business application systems into the municipality's core Financial System.

It is proposed that all contracts for ICT related business application system as listed below and terminating on 30 June 2013, be amended to remain in force for a period of three years from 01 July 2013 to 30 June 2016:

Reference Number	Service Provider	Scope of Original Contract
0001	Bytes Systems Integration	Samras is the core financial System of the Overstrand Municipality. The intent is to upgrade the system to Samrasplus to also incorporate similar functionalities as are currently available in other systems.
